

Belville Mayor for the Day By Andrew Allers

Vote for me! I would like to be mayor of Belville for the day so I could make Belville a better place to work, live, and play. I would like to see new shops and restaurants on Main Street. If new businesses are built, we would spend our money locally. This way our tax money would stay in our town. Also, the new businesses would need people to work there. This would bring new jobs to our town.

Belville has a park that has a lot of land. I would like to make changes to the park so that more families will use the park to play. The land could be made into a soccer field. This way teams can practice there. I would like to add a toddler area because my 1 year old brother can't play on the equipment that is there now. This way the whole family can play at the same park.

River Road is a very busy road in Belville. There are more people moving to Belville so more cars are on the road. I would like to put two lanes on both sides of the road instead of only having one lane on each side. If there is a car accident on this road, other lanes would be open for cars to pass through. This would help people get to work or school. I believe these changes would help Belville be a better place to live, work, and play.

ASS'Y TO Comm. Brett
